

Equipment Finance Available

Why hire when you can buy?

Whilst the return on Investment (ROI) / payback period on our products is often very short, we understand there is still an initial investment that can be a financial hurdle.

To assist your decision to own your our system rather than any ongoing rent / hire, we have partnered with a commercial equipment finance specialist called '**AGSA Financial Services**' so that you can purchase and take stock of the '**Lomax Hoarding and Fencing System**' upfront, but pay for your new equipment over time with your choice of monthly instalments.

Unlike a 'rental or hire' arrangement that have ongoing monthly repayments but where the stock is never actually yours, now you can easily finance the '**Lomax Hoarding and Fencing System**' equipment, and the asset ownership transfers to you at the end of your preferred payment term for only a \$1 balloon payment

(Plus, you don't have all the additional costs of transporting any rental stock back and forth as you on-hire / off-hire it accordingly)

You select how much you want to purchase and the finance term and the application process could not be easier:

1. No Deposit
2. **Personal service** – simply call Gavin to talk through your options & Apply.
3. **Easy to apply** – all done over the phone
No financials needed for under \$45K

Potential Additional Benefits

You get to claim the monthly repayments as an operating expense*,

The current scheme for accelerated depreciation on business assets, possibly allowing you to claim 100% depreciation in the first year*.

Apply now or call with your enquiry:

Lomax Hoarding and Fencing System for product info – 1300 0 56629

or

Gavin Judd at 'AGSA Financial Services' on 0413 883 514

Remember, for a standard 3.6mH indoor hoarding with the Lomax Hoarding System, you only require 4 x Lomax 18Kg Counterweights + 1 x Lomax Support Post for every 1.2mW stud interval
